# AMERICA ON BRINK OF WAR CHASM

# THE AMERICAN SOCIALI

Ever since the war terror began its march through Europe, the American capi talist press has been active in propagating the belief that the European Socialists have enlisted in the cause of murder.

This new crime of the prostituted organs of capitalism can be especially charged against the German newspapers in this country, which have been daily proclaiming that the Socialists are supporting the Kaiser in his attempt to satiate his appetite for blood.

That an active anti-war campaign is being waged by the Socialists over Europe is shown in the stirring war proclamations issued by the German and Austrian Socialists, contained in the foreign Socialist newspapers just arriving in this country from abroad.

The anti-war proclamation appearing in an "extra" of the Berlin Vorwaerts, the official organ of the German Socialist party, July 25, is as follows:

Already the fields of the Balkans are soaked with blood of thousands of murdered victims, and are smoking with the ruins of desolated cities and devastated villages; already hungry, workless men, widowed women and orphaned children are wandering through the land, and already Austrian imperialism has released the fury of war, to bring death and destruction over all Europe.

While we condemn the motives of the imperial-Servian Nationalists, we also raise the sharpest protest against the war-provoking attitude of the Austro-Hungarian government. The demands of this country were the most brutal that have ever been directed against an independent government in the history of the world, and they can only have been designed to provoke an immediate war.

The class-conscious proletariat of Germany raises a flaming protest in the name of humanity and culture against the criminal incitements of the war maniacs. It demands imperatively of the German government that it use its influence upon the ply has not been cut off. On the Austrian government to maintain peace, and that other hand some of the markets in in case a shameful war can not be avoided that Europe's warring countries have

We will have no war! Down with war! "Hurrah for International Brotherhood!" -Central Com., German Socialist Party.

"Workers and Comrades:

"We speak to you in a solemn moment. The danger of a war with Servia grows more threatening, and even before this day has ended, it is possible that war may be declared. The Austrian government has sent an ultimatum to Servia, the answer to which is demanded with the alternative of a bloody conflict by 6 p. m. Saturday.

"Peace now hangs by a single thread, and if that thread is broken, that is to say, if Servia does not accept the conditions fixed by Austria-Hungary, then war will be declared-war with its horrors, its afflictions and its who will be called upon to suffer its terrible expenses and its fatal consequences."

After denouncing the assassination of the crown prince, and stating that the Socialists are at all times opposed to such methods, the manifesto continues:
"We are convinced that all that the Austro-Hungarian

government requires to maintain its position may be obtained by peaceful methods. But even if this is not possible there is no necessity or consideration of prestige of a great power which forces it to break the ties of peaceful relations.

"For this reason we, as representatives of the Austrian working class, declare that we do not wish to accept the responsibility for this war with all that it involves, with all its terrible consequences which may

MERICA is now on the brink of the European war chasm. At any moment it, too, may be groveling in the shambles of murder with the nations across the Atlantic. It has not remained for the Socialists to point this out. This is being done day in and day out by the "patriotic" capitalist press, showing how American dollars may take advantage of the turmoil in Europe. That the millionaires of Europe may make huge profits out of the strangling of European civilization is evident. But what may be the price? The cost may be the reddening of the United States and foreign countries with the blood of the American workers.

Beef Barons August 7. He shows why and how capital may plunge America into war. The situation is graphically told by an "international lawyer" writing in the Chicago Tribune,

The Tribune buries the story in its editorial page. Other "patriotic" capitalist sheets are denying its charges. It is the duty of the American Socialist movement to bring this story home to every toiler in the nation. It is the duty of American Socialists to stave off this calamity by pointing out its dangers now.

Germany's workers did not expect the war to come so soon, if at all. England's toilers did not think they would so soon be murdering their German brothers. But the war monster in a flash embroiled all Europe. Will the United States, too, be swept into this slaughter whirlpool? This is how it may be done:

pean struggle.

Greatest of all is the danger which will be run in the

carrying of contraband after a merchant marine is obtained. Danger also lurks in the proposed amendment to the registry laws.

Almost equally great is the danger in the Orient, where the United States must police Asia against the

aggressions of the Japanese.

The Panama canal may force the United States into international disputes if the warships of two or more of the warring nations meet near it and those of one at-tempt to escape from the other through the canal.

Possibly the greatest danger will follow after the war closes. If one power emerges triumphant over the others in such a degree that it will be looked upon as the world's foremost fighting nation, undoubtedly it will turn its attention to South America. The Monroe doctrine

is facing its severest test.

The United States has the advantage, if war comes, of being able to feed and clothe herself, as well as furnish all of her building material and fuel.

Europe, on the other hand, with its dense populations

Europe, on the other hand, with its dense populations in its western half, largely urban and industrial, must depend on ocean-borne commerce to a great extent for food supply. This is especially so with Germany and England, whose large populations are for the most part concentrated in great cities.

England—so far, at least—holds the sea, and from her preponderance of naval tonnage should continue to.

This should insure a sufficient food supply for her own people, and under present conditions for France also.
England today is in much the same relation to Germany as she was to France in 1805-1810. Germany and the United States gained great advantage and profit from

During the period of the Napoleonic wars, American ships were neutral and of the same status as to the continent of Europe that they are today. It was the beginning of the great United States merchant marine which, fostered under wise laws, carried some 65 per cent of the ocean borne commerce by 1861, at the beginning of the Civil War. This war put an end to it.

Today we have the same opportunities that were presented to our forefathers during the Napoleonic wars. In this case Germany, certainly, will put the highest price on blockade running. If a cargo of wheat is landed in Hamburg at this time it will be worth its weight in nickel; four months from now its weight in silver; and a year from now its weight in gold. During the period of the Napoleonic wars, American

year from now its weight in gold.

Contrary to the expectations of many, the present war is apt fe last more than one year. With tremendous premiums placed on blockade running, there will be plenty of eager takers. This same sort of thing brought war with England in 1812.

England, if she suspects any cargoes, will insist on the right of search and will act as her best interests dictate in the premises. What England may regard as

contraband of war may be very different from regard as contraband of war.

The United States regards the declaration of Lond as authoritative in so far as its (the United States) view of the questions of neutrality are concerned. England does not recognize in any way the declaration of London

Italy, a neutral nation, might therefore with propriety consider foodstuffs as not contraband. She would then become the haven for the United States trade in wheat and other foodstuffs. and other toodstuns.

Then if England stopped this trade—that is, between the United States and Italy—she, in a way, would be interfering with the trade between two neutral nations, one of which would be the nited States. This almost surely would cause friction between the governments

The United States has guaranteed a neutrality of the

The United States has guaranteed a neutrality of the Panama canal to all nations. This, of course, applies to war as well as peace. The ships of any of the belligerents can use the canal, therefore, as soon as it is opened. Suppose that England, if bedly defeated on the sea, called on Japan some time next December for a division or two of battleships to go to her aid in accordance with the provisions of the Anglo-Japanese alliance. Would the American people look with favor on this? Suppose a German ship were being chased by a Japanese ship and it were captured close under the forts of the Pacific entrance of the canal and the forts sunk it. What would be the result if the Japanese claimed that they were not within the three-mile limit?

Suppose a tension existed in the relations between the United States and Japan, and a Japanese warship requested a passage through the Panama canal. It would have to be given it. Suppose that while going through a lock the forward magazine of the ship exploded, by accident, of course, and put twenty tons of scrap iron and steel into the lock blowing out one state in addition.

and steel into the lock, blowing out one gate in addition.

Whichever nation emerges victorious from the present European struggle probably will come out of it as the strongest power ever known on the earth. This, if on land, soon will cause her to be so on the sea, and if by sea already she probably will be doubly so then.

We are witnesses of the destruction of life and property of all nations in the revolution-torn republic of

Mexico. The balance of power, armed power, was such in Europe that none could actively interfere against the pressure of the United States for the protection of their South America forms an excellent field for colonisa-

herself to be surrounded by powerful neighbors with their vast armed might?

The Monroe doctrine has never yet been subjected to the tests that will result from the present disturbance of the balance of power in Europe. When this balance was initiated in Europe the seas, in point of time necessary for crossing them, were three times as broad as they are now. The Atlantic was wider than the Pacific is now.

# LET AMERICA STARVE WARRING NATIONS TO PEACE

In this issue we are giving you the stirring war proclamations issued by the Socialists of Germany and Austria. What is there more inspiring than the closing sentence of the Austrian Socialists proclamation, reading as follows: "Solemnly we declare ourselves devoted to the work of civilization, to international Socialism

The war storm broke so quickly with its full strength over the great nations of Europe that the forces of Socialism did not have sufficient time to fight back this tidal wave of reaction and bring its efforts to naught. But even now the Socialists of Europe are continuing the struggle against

the murder monster. But peace still reigns in America. While that peace endures, American Socialists should treasure every minute of it and devote every hour to aiding their European comrades. WORK TO BE DONE.

International Socialism demands that the workers of the world stand together for their common interests. In this hour of trial the American workers must rally to the support of their European comrades. The antiwar proclamation of the Socialist party declared that:

The Socialist party of the United States hereby calls upon the national administration to prove the genuineness of its policy of peace by opening immediate negotiations for this disastrous conflict."

Only the constant agitation of the Socialist party will result in the national administration making any pretense of offering its services to restore peace between the warring nations on the other side of the Atlantic. This work must be unceasing. Any attempt on the part of the administration to aid big business exploit the kelplessness of Europe should be exposed and its perpetrators pilloried before the American people. The European war is only another excuse used by the food czars to starve the country until it has been sparated from its last penny. There is no reason why the war in Europe should increase the cost of life's necessities in this country.

# JAURES GAVE UP LIFE IN NOBLEST CAUSE FOR WHICH MAN EVER BLED.

By George Allan England

Just as the massed wage-slaves of half of Europe, "tricked to the trenches" by their masters, their war-lords and gold-laced,

their war-lords and gold-laced, their war-lords and gold-laced, egomaniac rulers, were about to hurl themselves in a death-grapple against the equally deluded alaves of the other half, the terrible news came floating from Paris that Jean Jaures, the world-famed Socialist leader in France and one of the most prominent anti-militarists in Europe, had been shot down in cold blood.

No unpremeditated deed this. It had all been planned with care. With precision the foul murder was carried out. The murderer's hand—actuated by who can tell what diabolically alimy piottings of capitalists, clericals and jingoes?—drew aside the curtain in the cafe where the greet orator and deputy was sitting and fired two bullets through his head. Jaures, without a word, fell forward and expired—a martyr in the cause of Labor and of Man; a sacrifice upon the altar of Peace; a terribly damning arraignment of a system which, to serve its bloody ends, stops not at an open murder.

Jaures had long been carrying on a formidable campaign against

a system which, to serve its bloody ends, stops not at an open murder.

Jaures had long been carrying on a formidable campaign against war. For years his eloquent voice—one of the most powerful in Europe, commanding and inspiring—had been constantly raised in the cause of peace. his pen, through the columns of his paper, "L'Humanite," had untiringly denounced the stupidly cruel butchery of the workers, the barbarous immolation of the millions, in the interests of the puppet parasites. At many Socialist Congresses he had been a dominant figure. The impending Congresses had been and been anticipation, even as the rulers, the blood-lusting master-class, had been fearing the effects of such appeals. Capitalism trembled before this man. And, trembling, it struck—one of the foulest deeds ever writ against it on the great Ledgers of Time, which shall yet be balanced and where every debt shall yet be paid in full.

Thus pesses from our sight this master of oratory, this great Socialist leader and peacemaker. Thus we take leave of him. "Jaures has laid down his life in the noblest cause for which man ever bled. He has gone down fighting for humanity."

The masters, in their blind fatuity, dream that perhaps they have succeeded in stilling his voice and in throwing terror into the hearts of the great Socialist peace-movement. Now they stand back in the shadows and laugh in short-lived triumph. Never was vainer dream! "The blood of the martyrs is the seed of the church." Jaures' death will instanty tocus the attention of the world on one great, central, dominant fact — THAT

is the seed of the church." Jauven' death will instantly focus the attention of the world on one great, central, dominant fact — THAT SOCIALISM STANDS FOR PEACE. Millions will awaken to the realization that Capitalism means War, Mass-murder, Blood, Death; that Socialism means Peace, Progress, Life. In no more effective way could the warrang interest have hing our message to the world. Jaures, the orator, the historian, the scholar, the humanitarian is deed; but his soul goes marching on. More grim and more determined now becomes our pledge never to couse our

work till the last gun has been forever spiked, the last cartridge fired, the last warship flung upon the junkheap of forgotten things. Comrades, over the grave of this our martyr, "whose body was broken for us," let us renew our pledge and our faith.

Jean Jaures has given the supreme gift, his life, for peace and for mankind. But his influence will still march in our everstrengthening ranks. "He fought in a movement that absorbs the best of all who are a part of it—a movement that loses nothing that is given to it." And had he chosen, he would have died so; an immortal martyr to the cause of faan.

If, as we have many reasons to hope, this conflict is to be the last great European war, the culminant death-struggle of Capitalism; and if, as we not only hope but also believe, some thrones may befere long be swept away by it, to give place to Socialist republics, then Jaures' part in that glorious work of emancipation will shine with added glory, deathless forever.

At the November elec-tions the fight will therefore be be-tween these two candidates.

Cheer Jaures' Name.—Members of the French Chamber of Deputies paid a remarkable tribute to the memory of the assassinated Jean Jaures last week. So tumultuous became the cheers at the mention of his name by President of the Chamber Deschanel his speech for several minutes before he could again make himself heard "White Wolf" Slain .- "White Wolf," who occupies a position in China similar to that of Villa in Mcxico, has been killed by government troops.

DOMEN'T LIKE MEADING

I had an opportunity to look into the new edition (party's American Socialist), and as a Socialist and member of the party for four straight years, I wish to state my opinion that the heading should have been like:

"Amer. Social.—Party Organ."

Knowing and remembering the matter of the Chicago "Daily" and how it worked, I should say that the same may happen now, if it will not be designated properly as the party's organ.

Although there is accmething mentioned on the second page about what I have stated above, however, I am not pleased with it. About the editorial affair, I want to say that it is very pleasing to me.

With the best wishes to the success of the organ, and all those who work for it.

WOULDET THAT JAB TOW.

It was so amusing that it made me laugh heartily. Comrade William Kensinger's article critising the article in last week's American Socialist entitled: "Talks Pure Socialism to Industrial Commission." Just after he quoted the title of the article he says: "Now, get that." I said to myself: "This comrade must to have been an ex-Democrat (Jack'ss), a kicker." I had no thought for a moment when I read that article that Maurer did NOT understand all that Comrade Kensinger wrote about. I may be mistaken, but it runs in my mind that EVERY thing is born a baby. I was, he was and all other animals were. Everything I have studied about was. I am of the opinion that the Co-operative Commonwealth will have to be born A BABY.

I do not object to GOVERNMENT OWNERSHIP of the means of producing and distributing wealth. I think WHEN we get that far advanced we will have learned enough about DEMOCRACY to apply it to the affairs of our government. I would like to ask Comrade Kensinger to analyse this question, and make his analysis so plain that an ignorant negro could understand it: "Why is it morally wrong for our government, or any other government, to allow the dollar to draw an increase to the private individual.

If added proof were needed it is to be found in the fact that the attempts to get gold across the gan, and that after war began, and that after war began there was no longer any secret as to WHY it was being sent to European bankers.

Pinancial authorities who, or same war, or same w contrade follow up the route and gather in the subscribers.

If we had a couple of hundred locals like Toledo, Ohio, 100,000 would not be in sight—it would be hefe.

And now, just to remind you, a list of 12 subscribers will bring you the 1914 Campaign Book.

Don't Keep Secret.

If added proof were needed it is to be found in the fact that the attempts to get gold across the Atlantic continued after war began, and that after war began to WHY it was being sent to European bankers.

DANISH CHILDREN CHEER FRANCE; SHOT BY GERMANS.

It appears certain that if the money powers of the world knew that war was coming, that the money powers may justly be held under the suspicion of having had at least a little to say in the bringing on of the multiplicity of wars now raging over Europe.

# War Against War!

A stupendous and fearful tragedy is taking place in Europe.

Men who are brothers, who belong to the same class, who suffer the same wrongs, whose interests are absolutely identical, are flying at each other's throats, burning each other's homes, widowing each other's wives, orphaning each other's children.

Comrades, let us take time by the forelock.

Capitalism in the United States is the same as capitalism in Burthe.

Capitalism is the United States may plunge us into a war at any moment.

That the possibility is by no means remote will become clear to you when you read

LET US MAKE WAR IMPOSSIBLE BY THE MOST STUPENDOUS ANTI-WAR AND ANTI-MILITARIST CAMPAIGN EVER WAGED.

The Pearson Publishing Co. and ALLAN L. BENSON have given us permission

# Socialism, the Lone Foe of War

\*from Benson's famous book, "THE TRUTH ABOUT SOCIALISM."

It will make a pamphlet of 16 pages and will be the same size as "The Bombshell." Of the excellence of the article we need say nothing. Most of you have read "The Truth About Socialism," and you know that the chapter on war is perhaps the most forceful chapter in the book. It has been revised to cover the present crisis.

Prices on "SOCIALISM, THE LONE FOE OF WAR," are as follows: 10,000 copies, f. o. b. Chicago, \$25.00; 1,000, \$3.50; 500 copies, \$2.00; 100 copies, 50 cents; 50 copies.

35 cents. We have also printed a half million copies of the splendid four-page leaflet by GEO. R. KIRKPATRICK.

# The Socialists and the Sword

Prices on this leaflet are: \$1.60 per 1,000; 20 cents per 100; \$1.00 per 1,000 when pur-

chased in quantities of 5,000 or more, f. o. b. Chicago. Comrades, never before has mankind faced such a crisis. Ours is the only movement that can meet it, PROVIDED WE ACT IN TIME,
