Says Country is Water-Logged and Less Than a Year's Subsistence Stands Between Man and Starvation - Something to Read and Digest.

"Country is waterlogged with bonds and less than a year's subsistence stands between man and starvation."

If any final word is necessary to prove the Socialist contention that the present system of society is extravagant, inefficient and about ready to die a natural death, it has been supplied by James J. Hill, the "prophet" of Capitalism. Speaking at a banquet which closed the convention of the Investment Bankers' Association of America October 30, Mr. Hill dropped the following bombshell into the midst of the assembled Capitalists:

If the true story of all municipal incheduses, now conceled heaven the manual crop of the share with the tunan machinery of industry, but the human machinery of industry, but the human machine treatment banks awaged with nature from the beginning.

Every organ of tissue in the human body must receive its controlling influence through its nerve connection with the brain. Pressure on these nerves will cause disease. BUFFALO SOCIALIST PUBLISHING COMPANY

THE FOUNDATION OF THIS CITY IS CREDIT

The financial credit of the city of Buffalo is noticeebly high, says the journalistic monthpiece of Fuhrmann, and from this the conclusion is drawn that the present administration is all that can be desired. But this conclusion is entirely wrong.

The credit of our city does not rest on the politicians who are spending the money of the community, but on the amount of taxable property in existence to-day which our local government can do nothing to increase or decrease. And the value of our taxable property, and of all other property for that matter, depends on the business and commercial life and activity of the chizens of Buffalo whose agents the politicians in office are supposed to be.

But what constitutes the substratum and life-force of all business, of all industry and commerce?

Human labor.

The work, the skill, the industry of our working class is the hack-hone of all one huniness activity, and as such the solid foundation the financial credit of Buffalo as we can be suffalo as we can be compared to the summerial credit of Buffalo as we come to the conclusion that it is their sight, nay, even their duty, as citizens to be represented in the city council, in order to take their share in the administration of our, public affairs.

And they will be represented there, sooner perhans than our-

affairs.

And they will be represented there, sooner perhaps than our capitalist politicians expect it; and then we shall get a real binsiness administration the business of which will no longer be that of capitalist contractors and corporations, but that of the whole people, of the people who bear the responsibility for the credit of the sity.
