WORK DONE.

The advancing of this measure is one of the most marked victories of the Social-Democrats. There are only a few of them, but their proposed laws have such sound foundations that the public, once they see them, force their adoption.

The Social-Democrats in the Wisconsis, legislative body have done more for the working class than all the labor lobbled in all the tates of the union.

This is a big week for the Socialists in the Wisconsin iegislature. They are urging many of their most important bills and are doing yeoman service for the working class.

They were victorious in many of the preliminary battles before committees, in the riving the Republicans in the rightful exerting of their privileges. He referred to Thompson as a "vicious, impractical dreamer."

This Is the Bill

1. There is created and added to the statutes of 1898 a new section Sec. 1816m. It shall be unlawful for any corporation or receiver operating a line of railroad; in whole or in part, in the state of Wisconsin er, agent or representative of such corporation or receiver to repermit any operator to remain on duty for a period of more than essive hours in any consecutive twenty-four hours; provided, shall not apply in case of casua'ty upon such railroad; in which said operator may be required or permitted to be on duty not more than we successive hours in any consecutive twenty-four hours, or not to ex-

DOUMA FIRES MONARCHIST: MCZAR'S MEN AS ASSASSINS

St. Petersburg, April 12.—The insulting of thep resident of the duma, M. Golovin, by Mr. Purishkevitch, a high officer of the 'Union of True Russians' and a notorious monarchist, was followed by a prompt, expulsion of the reactionary from the duma.

Purishkevich called upon all members to sise as a mark of respect for the persons killed by revolutionists. He was declared out of order by President Golovin. This enraged the monarchist and he shouted to Golovin, 'You are not the president of the duma, but of the left.'

President Golovin at once moved the left."

President Golovin at once moved the expulsion of M. Purishkevich, and the motion was adopted by a large majority. The reactionary deputy then pickes up his hat and left the hall hurling threats at Golovin and merubers of the left.

News was received here that the counter revolutionary organization of Poltava, composed mostly of members of the "Black Hundreds" and Union of True Russians, who killed the liberal deputy to the first duma, Prof. Hertzenslein, is planning to kill Korolenko.

Caucasia.

It is said here that the strike in Caucasia is not serious, but that the government fears that it may extend to the Voiga region and to other great lakes. The government therefore sent this human bloodhound and made aim chief military commander over the troops in Baku. Astrakhan, Krasnovodsk and Petrovsk.

'MR. SCHMUS', WHAT'S THE **USE ANSWERED IN LECTURE**

Rockford, Ill., April 12.—Arthur Morrow Lewis addressed two good-sized audiences here Tuesday and Wednesday evenings at Germania Hall, in the interest of the Socialist Party.

The political situation in Rockford is exceedingly interesting, as the mayoralty contest is a five-cornered fight, and several of the candidates have about equal chances of election.

Robert Schmus is the Socialist candidate for mayor, and the old-party politicians have instructed the young bucks of the town to deride the revolutionary aspirant with the short and catchy Jingle.

"Mr. Schmus, what's the use?"

The rhyme is doing good work for

catchy Jingle.

"Mr. Schmus, what's the use?"

The rhyme is doing good work for Schmus and the Socialists, who are making it the text for some of their political gatherings. A good many people here are beginning to understand "what's the use."

Lewis answered the question Wednesdow night in his lecture upon the subject, "What Will the Socialist Mayor Do If E7-rted?"

In his address Tuesday uight, the Socialist discussed the local union labor political movement, which he declared to be sporadic and withou power to accomplish anything really worth white. He urged all workingmen who desire industrial equality and justice for their class to join the Socialist Party, which is worldwide.

He was frequently applauded.

The speaker announced that he would be glad to meet anythody in the city in the near future in debate upon the subject of Socialism. No one, however, offered to accept the challenge.

(Special to Chicago Daily Socialist.)
Washington. April 12.—One of the hardest blows yet struck at the Colorado mine owners' conspiracy to hang Moyer. Haywood and Pettibone is expected to fall before night.
It is reported on good authority that the federal grand jury in Idaho has indicted United States Senator Borah in connection with frauds by which the public domain was cheated out of land rights. It is understood that Governor Gooding and other men well up in the conspiracy to hang the jailed miners will be hit if the jury is permitted to go to the bottom of the land frauds.

THE LACK OF RAILPOAD TIES MAY BRING FEDERAL OWNERSHIP

Witherspoon, Ark., April 12.—In view of the failure of the larger railroad systems to find a satisfactory substitute for the wooden tie, and the disastrous wrecks following the use of concrete and steel ties, the views of G. W. Howard, of Witherspoon, are pertinent and interesting.

"The railroads seems to be getting Daily Socialist remainded to grasp the reason. It is because the supply of ties is about exhausted.

Des Moines, Ia., April II.—"The First Society of Eternal Youth" is the name of an organization founded here, which has for its object the prolongation of life, and which proposes to fine every member who becomes sick. That the association is in earnest is evidenced by thef act that 100 men already have enrolled in the scheme, the resumble of which reads as follows:

"Any member who is reported sick from any disease, and so remains sick and is comfined to his hed for a continuous period of three days or more, shall be fined in a sum not less than it nor more than \$10 for the first offense. For the second offense under this article any member shall be suspended from membership, and for the third offense of any member in violation of this article expulsion from the society shall be the penalty."

All members upon joining must sign a pledge that, he orshe will continually assert that there is nothing but causes people to be sick, grow old, or die.

To the question as to the financial condition of the board, President Ritter said, "There will be no cut in the wages of the teachers. The appropriation made by the council for this year's expenses was smaller than the year before, but if we are allowed to manage the matter we will close the year with no teffeit."

Dr. De Bey, when asked about the wages of the teachers, said: "There are other places expenses can be cut besides on the wages of the teacher if it is necessary to do any cutting. I stand for fair wages and will not vote to cut the wages of the teachers."

"To talk of the extravagence of the present school board is absurd," said Louis F. Post. "This has been the most economical board that has ever had power. It is because of school leases made by business boards that there has been any difficulty on the board this year. We are still paying bills incurred by 'business' boards."

The bureau was covered by a towel—fresh and spotle-sly clean, but strangely crumpled as though something or other—starch possibly—had been forgotten in the washing. On the bed the sheets had the same clean crumpled appearance; the bed was freshly made for the night, but the pil'ow still had on its day covering. By the bed, on a low stand, was a candle—half burnt; some sewing th:, Fritz had overlooked in his packing—a very big knitting-needle and a very small bit of embroidery; a brown battered little book of German working he suggested that they move to cheaper rooms, but Jim looked up with such sudden loneliness and agony in his

eyes that Fritz never tried it again. Then—watching Jim's shoulders and his coat hang looser on his body, old Fritz tried hard to take more of the copying himself; he increased to four

Ten teamsters, members of the Van Teamsters and Baggage Drivers' Union of the United Teamsters of America, were locked out by the Bosworth Furniture Moving Company, Sixty-first street and Wentworth avenue, at the request of the rival local of the International' Rrotherhood of Teamsters. The lockout is a result of the factional fight between the teamsters, which resulted from the secession of a number of locals from the brotherhood list August. The United Teamsters' organization is taking care of its lockedganization is taking care of its locked-out members and is paying the daily wages to the five men who have not yet found employment with any other concern. W. H. Ashton, secretary-treasurer, and William W. Brown, trustee, of the United Teamsters of America, both from New York, were in Chicago yesterday. Ashton and Brown are auditing the books of the organization at its headquarters in Aurora. As soon as the work of auditing is completed the organization will print a financh; statement which it will submit to all of its members.

Capt. E. E. Bessette of Typographical Union No. 16, received more handshakes and congratulations the last few days in Chicago than he ever did in all his life. Mr. Bessette had the good fortune, or bad fortune, to take off his mustache Fab before election. As a consequence he is mistaken for Mayor-elect Fred Busse, the two men being of equal weight and stature, although the distinguished printer is a handsomer man. Bessette is chagrined by the situation all the more because he is a clean-cut and definite opponent of Busse. Although chased from town by the employers' association, falled and damned because of stirring upworking psocle to stand for their rights, Bessette still sticks to the old parties, even if he is orioneed to their present mayor. "Just be still sad beart, and do not fret, Ed Bessette will be with us jest," remarked one of his Socialist friends.

KELLY, CONFESSED THUG. SOCIALISTS WILL PUBLISH **AGAIN ON POLICE FORCE** FINANCIAL STATEMENT

Tomorrow there will be published in this paper something which no other daily paper in the English language ever dared publish—a complete financial statement of the operation of the paper to date. No other daily paper dare do this. The Daily Socialist alone has no eccrets to hide from its readers, because those readers are its owners and managers. This financial report will show just how much money has been expended up to date, what the actual loss on publication has been, and the prospects for the future. It will then be for the Socialists of the United States to decide what shall be done in the future. Incidentally this will be a good thing to show to non-Socialists to let them know something of the methods of Socialist ad, inistration. It will also close completely the mouths of those who have doubted the statement that this paper was created and is maintained and controlled by the working-class, and therefore, can never sell out or betray them in any by the working-class, and therefore can never sell out or betray them in any way, but must always continue to faithfully defind their interests.

NO 2-CENT FARE LAW-STORY OF WISE SOLONS AND MONEY

(Special to Chicago Daily Socialist.)
Springfield, Ill., April 12.—The people of Illinois will get no 2-cent fare legistature was lation from this general assembly.

This prediction is freely made by those conversant with the unspeakably rotten condition of legislative affairs affairs here, and sub rosa, it is made by the senate leaders, to whose tender mercles the house 2-cent-fare bill has been committed. The senate has anbeen committed. The senate has anwarehouse commission to have the other measure or two of its own along this line, but there will probably be

John G. Drennan and his drove of railroad lobbyists have come and gone and left more or less deep impressions on the affairs of the fellows who do things in the senate. After them have come and gone the "big men" of the railroads, the pluhead presidents, with gross, overfed bodies, who made large talk before the joint railroad committee. They tried hard to remember the alleged facts and faked-up figures prepared for them by the high-class crooks they pay to do their thinking and make their money for them, and although they fell down pitiably and made egregious asses of themselves, yet the kind-hearted legislators were lenient with them for the sake of those who had gone before, and courteously did not press them too hard when they left holes in their near-arguments through which a platoon of ancient scythe charlots might have been driven.

The first order for the Organization Edition comes from Lee M. Lang of Muscatine, Ia. He wants a hundred to put where they will do the most good.

Letters have been sent to several Letters have been sent to several national and state organizer: who have done epecially effective work in some line, asking them to give the benefit of their experience to the readers of the Organization Issue. With the other features already secured, this will make a number that will give Socialism a good, long lift.

The Seventeenth Ward Scandinevian The Seventeenth Ward Scandinevian Branch of Chicago came in with \$10 yesterday for a share of stock. This is the sort of Scandinavians that have captured Copenhagen, given it the best municipal administration in the world, and built up Social Lemokraten, a daily Socialist paper, in the same city with twice as many subscribers as the next largest daily in Denmark. They know the yalue of a daily Socialist paper.

The Daily Socialist goes into every corner of the United States. It is by no means a local paper, and is still less so since two editions have been issued. There is not a Socialist in the country that cannot be benefited by the circulation of the Daily Socialist. A plan is now being developed by which any locality that will take 2,000 or more papers a week can edit two or or more papers a week can edit two or more columns on the first page and have the edition marked by the name of their town. Write us for further particulars.

The Humboldt (Ariz.) Socialists came in for a phase of stock this week. The Rocky Mountain boys are always live wires.

Owing to the fact that the Cook County Central Committee is to meet next Sunday afternoon, and as practically every delegate is a stockholder, it has been decided to postpone the stockholders' meeting of the Workers' Publishing Society for one week. It is exi cted that before that time a complete financial statement can be published in the paper, so that all stockholders may come to the meeting thoroughly understanding the situation.

If every one of the thirty thousand readers of the Chicago Daily Socialist could but view the mighty Hoe press in action as it turns out each day's editions there would not be a particle of trouble in doubling the circulation to the court four heurs. in twenty-four hours.

The new plant has an easy capacity of 100,000 circulation. If everyons who reads these lines will gather the inspiration of the force of steel and electricity assembled in the Daily Socialist printing plant and then proceed to give that power effectiveness no time will be lost in placing four subscribers on the list for every one now there.

Two editions are now printed daily. This enables the daily to reach points 300 miles from Chicago on the day of issue. Other editions will be put on as developments seem to make neces-

Special editions can now be gotten out for wards and towns. If orders are given for not less than 2,000 copies on extra two columns will be set up and properly displayed on first page. Harvey was the first to come under the wire. Rock Island, Davenport and Moline now are talking of making up a joint issue of 10,000 or 20,000 copies of a "irt-city dition."

Here is a plan big with possibilities. Prepare copy covering your local sit-uation. Send in same along with \$5 for each thousand ordered, and your plant will do the rest.

If 15,000 copies are ordered you may have an entire new first page.

For \$25 each the three cities above mentioned could have 5.000 papers for each city.

A systematic distribution of these papers would work wonders.

Properly followed up, local party membership would be doubled, the vote trebled and regular readers by the hundreds could be secured. This plants far less exceptive thea wild organizers and properly handed, a any times as effective. Make your press earn its title of "owned by the Socialists."

Blankey and his wife left the house for a few moments and when they returned they found the servant lying or the floor unconscious, a cloth about her face, saturated with character. The house had been ransacted and the jewelry taken from the room occupied by the Blankeys.

The only clue is furnished by some of the neighbors, who saw the two men accompanied by a pretty, well-dressed woman enter the place and shortly after leave hurriedly.

When the result of the last municipal election was announced, several Chicago trade unionists announced that they were now going to "drop politics."

THEN THEY HUSTLED A LOBBY OFF TO SPRINGFIELD TO FIGHT THE INSURANCE SCHEME.

They may be willing to drop politics, but politics will not drop them. They said that their political work had injured the cause of

CORRECT. BECAUSE IT WAS CAPITALIST POLITICS.

Politics has not injured the German trade unions. On the contrary, they have grown with greater rapidity during the last two years than those of any other country in the world.

They have been very successful in securing gains. They are today in better financial condition than those of almost any other country They are militant, solidified, self-reliant, progressing.

THAT IS BECAUSE THEY ARE TAKING PART IN LABOR POLITICS-SOCIALIST POLITICS.

So long as the workers of Chicago, of Illinois, of America, or any other place permit themselves to be used as pawns in the game of politics played by their employers they will find that "politics injures the unions."

When they dare to stand independent and to enter into politics only in connection with a party based upon the interests of labor and labor alone, then they will find that politics will strengthen, solidify and give spirit to unionism.

One thing, however, is absolutely certain, and that is that the union cannot keep out of politics; no matter how much it wishes.

Politics is one of the means, and the principal means, by which the worker is kept in his present condition. The master class makes use of every branch of governor. in its efforts to keep wages down and profits up, to keep hours long and dividends high, to increase exploitation and maintain wage slavery.

The union can no more ignore politics than it can ignore the injunction, the police club, and the militia when out on strike.

THE UNION PELONGS IN POLITICS, AND POLITICS BE-

LONGS IN THE UNION. Not the politics of Republican bosses vs. Democratic bosses, not the quarrels between a capitalistic Dunne, and a plutocratic Busse, but the battle between the workers and the shirkers, between laborers and not give to ourselves. Bobby Burns capitalists-THE SAME BATTLE THAT THE UNION IS FIGHT-ING IN THE SHOP, MILL, MINE AND FACTORY.

Now is the time to organize for that political fight.

Most important of all, now is the time to educate for the coming political battle. Now, when for a moment the capitalists have relaxed their campaign of deception, is the time for the worker to take up his campaign of education.

CAPITALIST POLITICS DEPENDS UPON DECEPTION.

Deception depends upon IGNORANCE.

Just as soon as the workers begin to read and study and talk over the facts that are all about them they drop capitalist politics. Now is a good time to begin that studying

When the case of Mike Kelly came up before the trial board he wa discharged, because no evidence could be found against him.

Where was the record of his testimony in the teamsters' case? Could that not be found? He swore there that he had thrown acid and committed other felonies.

Where was State's Attorney Healy? He spent thousands of dollars trying to send labor leaders to the penitentiary because it was alleged that they had done what Kelly confessed. Why this tenderness for Keliy?

Was he on the right side of capitalism?

IT IS GLORY ENOUGH

It is glory enough to have shouted the name
Of the living God in the teeth of an army of foes;
To have thrown all prudence and forethorght away
And for once to have followed the call of the soil
Out into the danger of darkness of ruin and death,
To have counseled with right, not success, for once,
Is glory enough for one day.

Is glory enough for one day.

To have marched out alone before the seats of the scornful, have marched out alone before the seats of the scornful, eir fingers all pointing your way; have felt and wholly forgotten the br inding-fron of their eyes; have stood up proud and reliant on only your soul dig ocalimity on with your duty—

It is glory enough.

It is glorious enough to have taken the perlious risk; Instead of investing in stocks and paid-up insurance for one, To have fitted a cruiser for right to adventure a sea full of shoals; To sail without chart and with only the stars for a guide; To have dared to lose with all the chances for losing is glory enough.

It is glory enough for one day

To have dreamed the bright dream of the reign of right;

To have fastened your faith like a flag to that immaterial staff
And have marched away, forgetting your base of supplies.

And while the worldly wise see nothing but shame and ignoble retreat,
And tho far ahead the heart may faint and the flesh prove weak—
To have dreamed that bold dream is glory enough,

Is glory enough for one day.

ECHOES OF GREAT DEBATE

I guess it is not necessary to show Harrack "from Missourt" (see your issue of 5th), but I would like to show pthers just how Harrack hits the nail fairly on the head. The basic essential thing to us is not commodities, but ishor service. Capitalism uses commodities to work its graft on labor service in a double way. The uncommodity forms of labor service, such as haircuts and baggage handling, do not lend themselves either to 'capitalistic or landlord exploitation, but land service, and labor service embodied in commodities do admit of padding or arbitrary unsarreed increment or overvaluation. Situations creating natural monopoites may afford some opportunity to work this game of graft on the laborer, but the chief opportunity is derived from the legal monopoly to which we submit and which I believe can only be broken when the Socialist Party, it mecassary 'ly main strength and awk-ardiness, select and distingtion of the explanation of the program of government. The double game of the explanation the monopolities of the explanation of the grant on the subcret, but the chief opportunity is derived from the legal monopoly to which we submit and which I believe to show the people are robbed, and stand shoulder to shoulder against the robbers in one social grand army.

I want to resoncie and correct their no powers of government. The double game of the explanation was anot more than scratched, the capitalistic formation of the study exchanges of the properties and the appreciation of the year way to the service extend the properties things I ever witnessed, and allowed the properties things I ever witnessed, and any way to the needless contentions of the properties things I ever witnessed, and allowed the properties things I ever witne

Competition and the Sweatshop

A GROWN man tailor, working in a clean factory for eight hours, can make clothes that are strong and bandsome, and keep his health. But a woman, who has no family to support, can do this work, not as well, but cheaper. She competes with him

competes with him and he goes out to hunt another job, and, the woman takes the machine.

But a child can do much of this work; not so well, indeed, as a woman, but well enough for it so get sold, and the child will do it cheaper. Some of the women are let out and the child comes in. This is competition, and the result is that thousands of men, women and children are living a slow and torturing death in the foul dirty, unhealthy tenements of our great cities, working for wages that run from \$5 a week down to 90 cents a week, the average for \$50,000 people in Chicago being \$248 a week.

A Russian Girl's Fate

of a girl "suspect's" fate in the Russian revolution.

The name of the girl in question was Simova, and she had been arrested as a 'suspect' simply because the happened to be in a Liberal newspaper office when the police came to confiscate the paper in the usual way. As no evidence could be raked up against her, after several weeks' investigation, she was daily expecting her release. Meantime she was shut in a cell with fifteen other women, similarly "suspect." Above them were some ordinary crinicals, fed on the shual prison fare, and any little comforts which the risks received from outside they used to share with the criminals, sending them up-by a string which was let down from the window above. This was called the "telephone," and the authorities winked as it, as they often do the Russia.

I saw a small puff of yellow smoke. Simonova's head dropped. My heart stood still, but I saw the others by the window were moving and I ran to them. A girl who was standing near Simonva took hold of her and laid her on the floor. 'She is killed,' she cried. 'One of the prisoners, who was a nurse, felt her pulse, but turned away with a hopeless gesture. The eyes were glazed, blood flowed from her head. "When I saw she was dead I went to the window and cried to the soldier: 'Murderer! You have killed a woman!' die took aim at me with his rifle, but I jumped aside before he had time to fire.

I jumped aside perore is in the fire.

"We ran to the door leading into the corridor and found he lot of wardens standing behind it. "Murderers." we cried. "Will you shoot us all?" One of them laughed brutally and said, "What was she standing at the window for?"

For this exploit the soldier who killed the girl received a reward of 10 rubles (about 15), it was said, by the express desire of the czar.

Socialist Danger Dead

By Robert Rives Lu Monte

What the capitalists want you to think, they have their editors put in the editorial columns; what they really think themselves and want to tell to their fellows of their own class is carefully put in the financial column, which they think you never read. That is why I always turn first to the financial page. I did so this morning (April 8) and here is what I found: *

There were several new favorable factors during the week aside from those specifically relating to the money market. The outlook for the season's crops so far as it has progressed is splendid, many private statisticians putting the condition of winter wheat on April 1 at nearly the same high average accorded to it on the same date a year ago. Bankers and large investors have been unquestionably greatly cheered by the decision unanimously rendered by the menibers of the supreme court of Minnesota favorable to the Great Northern Railway Company's contention regarding the proposed issue of \$60,000,000 new stock by the Great Northern Railway.

.Here was a proof than which none could be stronger that the courts of our country can be relied upon to do justice to railway interests whenever these are unfairly or improperly attacked; indeed a reference seems very pertinent at this time to the fact that occasions have been very few in the country's history when the courts of the land have dealt what could truly be called a blow to fie rightful interests of capi d. In spite of all the tumults and apprehensions proceeding from proposed Socialistic legislation, Bryan political campaigns, suits against corporations by government officials and the mouthings and fury raised in general against corporate concerns, capital and the rights of property in this country have always been protected, and the man is very ignorant of the true temper and conservatism of the American people who doubts that they always will be.

The effect upon financial matters of the municipal election in the city of Chicago last week was also exceedingly salutary. Chicago is the one place in this country where the municipal ownership idea has hel greatest sway; and the people of Chicago fter a trial of the matter have declared, just as the people of London have done, that they wanted no more of it. In fact, a well defined reaction against the general Socialistic propaganda is now plainly in progress all over the world, and the probability is that we shall soon find our politicians making up their minds that an adoption of these schemes in political platforms in the coming presidential campaign will not be likely, to curry as great favor with the people of the country as it was thought they would a year or more ago.

There, you see, your bosses are all right; they are not a bit worried: they have just as tight a grip on the courts as ever. The state belongs of right to them, and this writer is anxious to reassure the few timid apitalists who have been alarmed by the antics of the mountebank Teddy, and others, that "capital and the rights of property in this country have always been protected," and "always will be." Of course, they will, as long as you workers let your bosses man all the offices of the state.

Listen to the glad tidings! Socialism is done for! Chicago and London have declared that they "wanted no more" of municipal ownership. And "well-defined reaction against the general Socialistic propaganda is now plainly in progress all over the world," and our politicians are discovering that Socialistic sops in their platforms are not likely to pay in 1908."

Our friend, the Financial Editor of the Sun, does not know it all: but he is right in more than he is wrong. Opportunist, reform, step-ata-time "Socialism," with its platform of and cipal ownership administered by and for the Middle Class he had a setback all over the world. It was a fraud, a delusion and a snare and the people of London and Chicago have decided that they want no more of it. Good! The track is now clear for genuine working-class Socialism. The Sun man is right; the danger from Middle Class Socialism is a thing of the past. In fact, it never existed, save in the imagination of the overtimid capitalists. That sort of "Socialism" was in the interest solely of the remaining remnant of the dying middle class. In the nature of things it could never be a real danger.

Just so in Germany, what has had a setback is Bernsteinian Revisionism. The German Social Democracy at the last election won a magnificent victory, gaining over 250,000 votes, an increase of over 8 per cent in the most bitterly contested election that Germany ever saw, with the bourgeoisie aroused and combined as they never were before, BUT BERNSTEIN WENT DOWN TO DEFEAT.

With this plain lesson before them it is probable that next year, as the Sun may says, the politicians will be wise enough to leave the Populistic and semi-Socialistic planks out of their platforms. This clears the track the world over for real Revolutionary, Proletarian Socialism, BUT FOR NO OTHER KIND OF SO-CALLED SOCIALISM. Revisionists, reformers, opportunists, all must yield to the logic of the facts. The "danger" from their brands of Socialism no longer frightens the capitalists.

Has the Socialist Party in America the brains to profit by this lesson? And the courage? The outlook was never so bright as it is today for Socialist Party which has the courage to carry aloft without apology the blood-red banner of the fighting working class.

Has the Socialist Party the courage to be RED?
