But the working class of America will not forget Moyer, Haywood and Pettibone, their brothers in an Idaho jail.. Workingmen have pretty good memories, anyhow. When once they get an idea, it is bard to di lodge it.

REACHES TWO MILLIONS.

"The Socialist" is being sent to very Labor Union paper in the U. S. by means of a special fund raised in Seattle for the purpose. By this means these reports will reach two million union men every week. No we don't think the workers are likely to forget, even if the Gooding crowd keep our brothers without trial and without bail till the snow files again.

NO TRIAL, NO BAIL.

The prosecuting Republican administration of Idaho is happy again. Why?

Because they happened to find at excuse for delaying the trial. To have that trial going on as a campaign issue was a nightmare to them "Bill" Borsh even announced he had surrendered his chances for the U S. Senate and Gooding nervously consuited McParland every day and ev ery night.

Now all is changed. The sky i clear and the water is smooth. Some body told them of an incidental or sccidental remark of Chief Justice Fuller, which might be twisted into an interpretation that made all proceedings null and void while an ap seal for Habeas Corpus was pending in U. S. Supreme Court.

They jumped at this as a drown ing man at the rope. They are free now to go into the campaign and forget this horrible case they wish they had never touched and try to forget too the indignant Working class they have aroused.

THE BIG LITTLE JUDGE.

It seems pretty tough that Judge Smith, a pleasant enough little rural lawyer, but not born for obvious greatness, should have the power to refuse bail to our imprisoned comrades, all this long, bot summer He would not even pause to consider He rejected the application peremp torily, when Lawyer Richardson re newed it on May 31, saying he had already decided that question.

CHANGE IN PUBLIC SENTIMENT

The most remarkable phenomenor in this region is the new note in the public talk on the streets of Boise and even in Caldwell and other towns in Canyon County.

The feeling of surprise at the re fusal of ball, which nearly every one experienced at first, has now grown into pronounced sympathy for the incarcerated men.

The Constitution guarantees eve ry man a "speedy trial." Now the public are asking how long the tech nicalities of the law can be made use of to deprive men of their liberty S. Park. and of a chance to prove their innocence.

WOMEN EXCITED.

The warm hearted women in par ticular are not slow in expressing their indignation at this prolonged imprisonment of men against whom nothing has yet been proved.

Even the "official set" of the capital city have heard echoes of this universal street talk and their organ, "The Idaho Daily Statesman," has been constantly on the defensive. Of late, however, the "States man" has been trying to ignore the

The approching congressional campaign is one of immense importance to our party. Within the last two years, and more particularly within the last year, Socialism has been pushed to the front by various events in our national life. by various events in our national life to an extent absolutely unparalleled in the history of this country. At no time have the public pressand platform paid so much attention to our movement, and at no time has the public mind been so thoroughly and persistently occupied with it as within the last year. The ensuing con-gressional campaign gives us a splendid opportunity to crystallize the somewhat vague popular sympathies into definite Socialist views, and to increase our vote and strengthen our influence and standing very material-
